

# Adrián Gutiérrez

32 Rue de Villeneuve, Bezons ( [adriangu006@gmail.com](mailto:adriangu006@gmail.com)

## EDUCATION

### **Instituto Versalles- *Primary school***

AUGUST 2006 - JULY 2012.

### **Centro de Estudios Benemérito de las Américas— *Middle school***

AUGUST 2012- JULY 2015

### **Tecnológico de Monterrey Campus Santa fé— *High school***

AUGUST 2015 - MAY 2016

### **Institute Sainte-Marie (Belgium) — *High school***

SEPTEMBER 2016 - JULY 2017

### **Tecnológico de Monterrey — *High school***

AUGUST 2017 - TODAY

## Languages

- Spanish (first language)
- Advanced English
  - Toefl certificate
- Advanced French
  - DELF B2 certificate
- Basic German
  - Goethe A1 & A2 certificate

## ABILITIES

DialogFlow(advanced).

Java (intermediate)

HTML & CSS (intermediate)

SQL (intermediate)

C (basics)

Fintech integrations skills.  
(advanced).

## ACKNOWLEDGEMENTS

### **Regional Robotics**

**Competition** Third place in Regional Robotics competition. In the state of Guerrero, Mx.

### **National Children's**

**knowledge Olympiad** Participation in the state stage of the National Children's Knowledge Olympiad.

**Spelling Bee Contest** Spelling contest.

### **Rotary Goodwill Ambassador**

Exchange program as a goodwill ambassador of Mexico in Belgium.

### **President of Formula Money**

**Student Group** This Student groups analyzes the financial

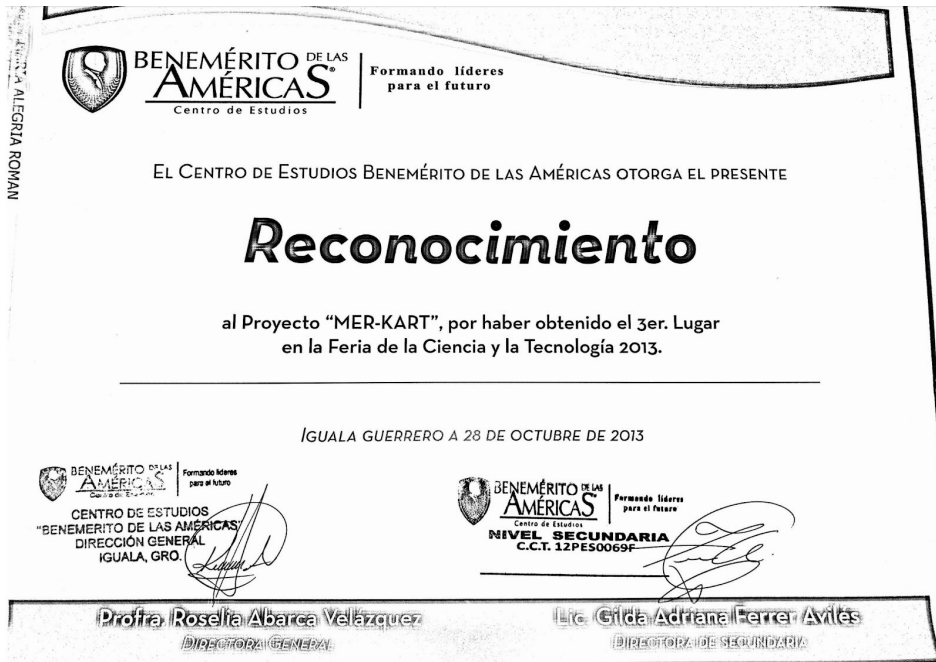

and economical parts in  
Formula One Management  
enterprise in Mexico.

Extracurricular activities:

- Participation in the National Children's Olympics.

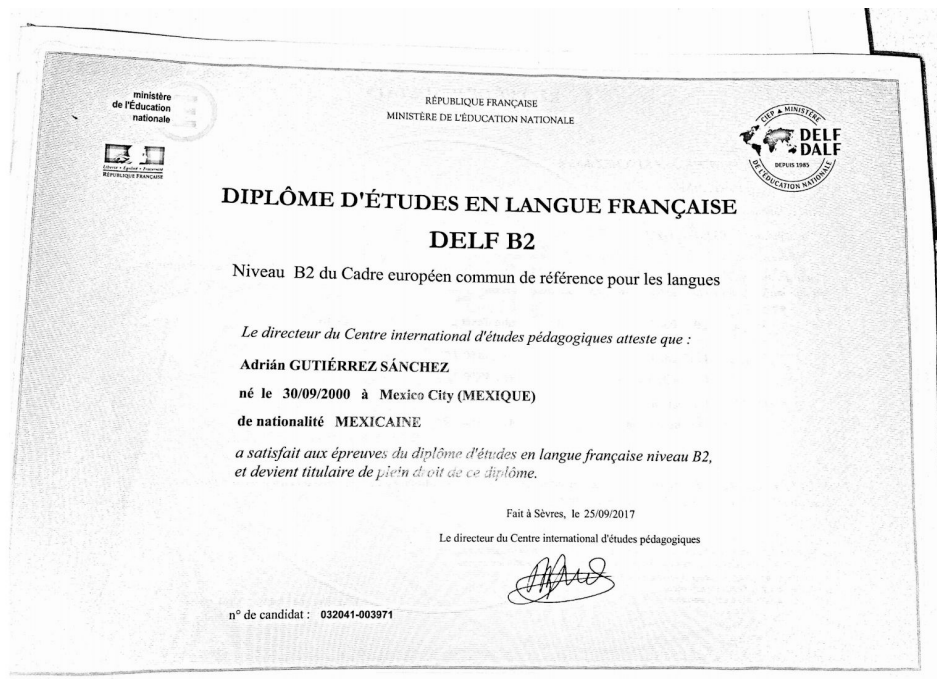

- 3rd place in the State Science Fair

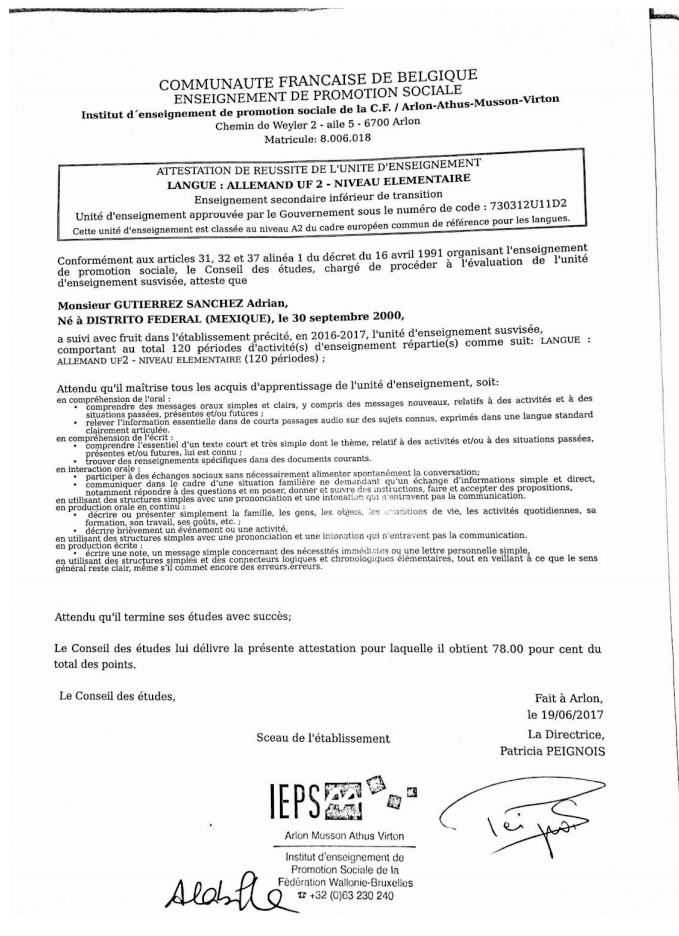

- Regional Spelling Bee contest certificate.

- DELF B2 - French certification (advanced level)

- German certificate (elementary level A2)

- Rotary Goodwill Ambassador in Belgium 2016-2017

- President of Formula Money (student group) 2018.

## Some of the things that describe are the following:

I have always considered myself as a person who looks for innovative solutions to the problems surrounding me. I think that my creativity for designing this solutions through software is exceptional. During my time In Mexico I had the opportunity of making software projects with enterprises in the south and center of Mexico such as the sale of products and optimizing the client service through chatbots.

One of the things I am most passionate about is mathematical models and their capacity to apply them in computers in order to find value in the data we constantly produce as a society. This leads us to take smart decisions on our everyday life. I have made a research about machine learning and its capacity for developing effective business purchasing plans, in order for resellers to acquire products at the lowest price available in the market.

I always aspire to positively influence the environment and make sure that the people surrounding me is also doing great in what we are doing as a team. Being a leader is very important to me, because I think that we could not focus on doing everything by ourselves, as we cannot be the best at everything. For instance, I think it is important to gather the people who has the skills you do not have as to complement them with yours and create more interesting and plausible projects.

Finally, I would like to say that I am a person who loves constant learning and applying this learning to the projects I am doing. This passion for learning has driven me to acquire supplementary knowledge and skills to the ones I have acquired at school. The most of what I have learned about computer science is possibly due to spending long hours programming things I like.

## Most recent grades.

y asimismo, los datos de inscripción de los alumnos, los cuales son necesarios para la inscripción de los alumnos en el sistema de gestión de la información.

Nombre del alumno Adrián Gutiérrez Sánchez

Fecha 31 de mayo de 2019

Número de matrícula 1650981

Este certificado se expidió en México, Ciudad de México

Mtro. Gustavo Enrique López Ordóñez  
Director de Servicios Escolares

Este certificado ampara estudios de PREPA TEC INTERNACIONAL
